A TOUR OF BORGO SAN LORENZO

The suggested tour of Borgo San Lorenzo starts in Pecori Giraldi Palace. Constructed on the site of the ancient Giraldi property in 1748, this imposing structure later passed into the hands of Count Pecori: today the property bears both his name and that of the former owners. In 1979, the Pecori family donated the building to the town of Borgo San Lorenzo. The façade is in Renaissance style, while the interior, which houses the **Chini Museo**, reflects the vibrant Art Nouveau style brought to Mugello by the Chini family.

In Villa Pecori Giraldi you can not only enjoy a permanent collection dedicated to the works and history of Galileo Chini and his family, but also the Chini Contemporary, a part of the exposition that is dedicated to contemporary art, and the *Museo dei bambini* (Children's museum), in which children and their families are free to experiment with art.

Info: +39 055 8456230

The tour then continues along via IV Novembre to **Villino Chini**, which was built by Chino Chini in 1923 for his family, who still reside there. Unfortunately, for this reason, it is impossible to view the interior of the house. The famous Fornaci San Lorenzo plant rose next to the Villino.

If we then move towards the historical centre along via della Repubblica, we can enjoy the view of numerous **Villini Liberty** (Art Nouveau style homes), which were constructed by the Chini family at the beginning of the 20th century and are very similar to the homes we find in famous thermal and sea resorts like Montecatini Terme, and Viareggio.

The **Municipio**, which is the Borgo San Lorenzo City Hall, is located in Piazza Dante. It was constructed at the beginning of the 20th century and on the first floor we find the Mayor's Office, which was completely decorated by Chini.

Villa Pecori Giraldi

San Francesco Tabernacle

It is particularly interesting to note the floor tiles, which are set in a radial pattern, and the Art Nouveau glass panes.

Info: Comune di Borgo San Lorenzo
+39 055 849661

To the left of City Hall we find the Neo-Gothic style **Oratorio della Misericordia** which was inaugurated in 1908. The portal is adorned with a Pietà in majolica, which was created by Galileo Chini. A rosette made by Manifattura Chini stands above the entrance. Two angel shaped candlesticks in glazed white terracotta, and two bas-reliefs in painted terracotta — one of Saint Joseph on the left wall, and one of the Madonna with Child on the right — are also products of the Fornace. On the vault above the apse we find a painting of the **Madonna della Misericordia** (Our Lady of Mercy).

By turning back towards City Hall and along via Bandini, we reach **San Lorenzo Parish Church** (see "Art and Faith", p. 28). This impressive Romanesque structure

(11th century) holds a Madonna that is attributed to Giotto. We also find the **Christ Blessed among Lorenzo and Martin**, which Galileo Chini created in an all-embracing, eclectic style. The motifs and the incisive lines define the figures in the early 20th century Italian style.
Info: +39 055 8459295

Next to the church we find the **Francesco Tabernacle** entirely by the Chini family to commemorate the death of the saint. The niche, which is situated in part of the wall of San Lorenzo monastery holds a ceramic statue of Saint Francis. The wall is completely covered in majolica of a lamb and a wolf, a coat of arms containing some striking motifs. The entire complex is covered by a canopy from which wrought iron lamps hang.

THE NATURE TOUR

This itinerary is dedicated to the flora and fauna of the territory, and has at its centre the *Museo del Paesaggio Storico dell'Appennino* (Museum of the Historical Landscape of the Apennines).

Museo del Paesaggio Storico dell' Appennino

Firenzuola, Moscheta, Badia
The "Museum of the Historical Landscape of the Apennines" is housed in the thousand year old *Abbazia Vallombrosana di Moscheta* where five different displays help us understand the characteristics of the Mugello Apennines. Starting from the hypothetical year 1000 (with an environment of wild woods and castles), we move on to a period of domination of the territory for agricultural purposes ("New lands", cultivated areas and woods), to the great transformations brought on in the urban landscape and the natural environment by the settlers (the creation of

the Apennines landscape: roads, towns, and countryside, 18th-19th century). The most recent signs of human intervention are found in the organization of agriculture (a landscape of farm estates, 19th-20th century), the progressive departure from the mountain, before, and the return to it with a re-evaluation of the cultural value, after (from an uninhabited mountain to a re-inhabited one).

THE ARCHEOLOGICAL ESTATE TOUR

This itinerary tours some of the most important archaeological sites in the territory, which include two museum-laboratories specialized in early, ancient, and medieval history.

Centro di Documentazione Archeologica di Sant'Agata Scarperia e San Piero, Sant'Agata, Chiostrro della Pieve

This learning lab and exhibition centre documents the principal archaeological finds in western Mugello from early history to modern times.

The first hall is dedicated to the Palaeolithic period and preserves remains from 200-300 thousand years ago to the more recent ones from 10 thousand years ago. In the second hall we find documents about the end of prehistory, from the Neolithic age to the bronze age,

and the Etruscan-Roman age up to the middle ages, and the modern age, with, for the most part, ceramic rests.

Museo Archeologico Alto Mugello Palazzuolo sul Senio, Palazzo dei Capitani

The archaeological exhibition documents the most ancient and less acknowledged part of the Lamone, Senio and Santerno valleys. Quite a lot of attention has been paid to the representation of the most important phases of the evolution of mankind. The remains collected and preserved in the museum bear witness to our distant past and have helped fill the thousand year gap that documents man's presence in the most remote corners of Upper Mugello.

Palazzo dei Capitani

Museo Archeologico Comprensoriale del Mugello e della Val di Sieve

Dicomano, Palazzo comunale

The museum offers two itineraries: "The Mugello and its places" and "Works and places". These itineraries offer a selection of vast and diverse archaeological remains: from the area of particular note, the steles of Fiesole, which are sculptural masterpieces and the tombs of important figures, to the magnificent Jewish Poggio Colla (a site which is in the process of being re-discovered for its monumental importance). Just recently, the museum has organised a learning lab in which children can try to decipher Etruscan writing, and can gain knowledge of the chronological order of the masterpieces of the territory.

TERRITORY

The Mugello valley occupies the upper middle part of the hydrographical basin of the Sieve River. It is a vast basin that is enclosed by the important Apennines watershed to the north; by Mount Giovi and Mount Senario to the south; and to the West by Mount Calvana, which extends to the province of Prato.

Here we find the towns of **Barberino di Mugello, Scarperia e San Piero, Borgo San Lorenzo, Vicchio, and Dicomano.**

The Mugello landscape is splendidly diverse: it varies from the thick woodlands that line the mountain crests—where wild boar, roe-deer, and foxes reign—to the chestnut woods and olive groves; from the vast terraced high plains of wheat and sun flowers to the fertile valley bottom where the main inhabited centres and roads are situated.

To the north, among the mountain crests and passes that descend towards Bologna and the Romagna region—in the upper part of the Santerno, Senio and Lamone basin—we find **Upper Mugello**, or what is sometimes called **Tuscan Romagna**, with the towns of **Firenzuola, Palazzuolo sul Senio and Marradi.** To the east, between the Valle dell'Acqua Cheta and Monte Falcone, we find **San Godenzo.**

The boulders and peaks create imposing outlines and landscapes. The countryside is dominated by uncontaminated beech, chestnut, and oak tree woods, by vast meadows dotted in juniper bushes or the odd outcrop. The limpid water and lush vegetation of these valleys are the perfect habitat for a great variety of birds and fish. The weather varies from the harsh climate of the Padana Plain—in which the cold winds sweep down from the tops of the Alps—to the milder Mediterranean one—which is so typical of Central Italy.

MUGELLO BY BIKE

The Distretto Cicloturistico del Mugello

In Mugello the trails are almost always paved, and they run along communication routes that have been travelled for centuries: only the time at your disposal or your technical skills stand between you and the choice of the best suited trail, because anywhere you choose to go will present you with a breathtaking landscape that will justify that journey. Along the roads of Mugello we find digital signage supplied by the "Distretto Cicloturismo Mugello in Bike" (Mugello cycle tour). The signs are linked to a Cycle-tour CARD, which is now being updated. The more expert cyclists can try their hand at the Grand Tour

route, which is over 200 km long and intended to be travelled in one day. They can also enjoy the beauty of the mountains and the magnificent climbs. The ascent from Barberino di Mugello to Passo della Futa, for example, is perhaps one of the most renowned routes, because it is among the favourite roads travelled by cyclists from Tuscany and Emilia, and also because it has hosted numerous prestigious chronoraces for both enthusiasts and professionals alike.

Please see www.mugelloinbike.it for maps and technical descriptions of the Distretto Cicloturistico del Mugello routes.

- from San Benedetto to San Godenzo

The trail leads to the Acquacheta waterfall, which is thus described in Canto XVI of Dante's *Inferno*:
*E'en as the river, that holds on its course
Unmingled, from the mount of Vesulo,
On the left side of Apennine, toward
The east, which Acquacheta higher up
They call, ere it descend into the vale,
At Forli by that name no longer known,
Rebellows o'er Saint Benedict, roll'd on
From the Alpine summit down a

Where space enough to lodge a
thousand spreads;
Thus downward from a craggy steep
we found,
That this dark wave resounded, roaring loud,
So that the ear its clamour soon had
stunn'd.*

- from San Godenzo to Dicomano

In San Godenzo in the Choir of the San Gaudenzio Abbey, in June 1302, a meeting was held by those exiled from Florence – the White Guelphs and Ghibellines – to discuss their plans to return to Florence. Dante, who had been sentenced to death *in absentia* by the Podestà of Florence, also participated in the meeting.

ON HORSEBACK

Thanks to the excellent conditions of many SO.F.T. trails, it is possible, to visit some of Mugello's most enchanting and secluded places on horse-back. A long stretch of the main loop trail, as well as many secondary ones, is easily accessible on horse-back. Many trails, however, are

obstructed, and the riding clubs in Mugello offer riders who are new to the territory invaluable information on accessible bridle paths. Numerous accommodations are also available for riders and their horses, and they can be found on the website www.mugellotoscana.it

GOLF

Golf Club Poggio dei Medici, found in the town of Scarperia, is one of the most prestigious golf courses in Italy. Opened in 1992, it offers its members and guests 18 holes, par 72, with a Championship course of 6.452 metres. The course was designed by Alvisio Rossi Fioravanti and Baldovino Dassù according to USGA standards; and it hosted the Ladies Italian Open from 1999 to 2003. This panoramic course lies in the green Mugello valley, is protected to the

north by the Apennines, and offers 5 different tees for players of all levels. Services include a Pitching Green, Putting Green, bunkers, 6 indoor and 24 outdoor areas, and a PGA coach for private lessons and golf clinic (upon reservation). Golf carts, electric and manual trolleys, and sets of clubs can be rented. Access is allowed to players with a maximum handicap index of 36 (men and women). SO.F.T. spikes mandatory. Open all year round. Info: www.golfpoggiodeimedici.com

LAKE BILANCINO

79

Lake Bilancino

Just over 10 million years ago,
compressive thrusts formed
a huge basin into which many
different watercourses –which had
no other outlet– flowed, forming a
lake. The basin extended for about
300 square kilometres: from the
Calvana Mountains to the Vicchio
valley wall. It is not difficult to
imagine what the Mugello territory
looked like then: there are times
today when the impressively dense
blanket of fog that rises from this
vast basin recalls those times and
the great extent of water that once
covered the area. The sediments
that were later carried here by the
streams and rivers saw the end of
the lake and the birth of this flat
fertile land.

Like it did then, today the valley
holds a great amount of water. The
man-made Lake Bilancino now
fills one of the parts of that ancient
basin. It holds 69 million cubic

metres of water, is 31 metres deep
at its deepest point, and covers an
area of 5 square kilometres. Lake
Bilancino is just a few minutes
from the Barberino exit of the
highway.

It was created to solve the
problems of the Florence area
hydro system –both the possibility
of flooding and drought– but
today it is a rich tourist attraction
that offers numerous outdoor
sports. Besides sport fishing, in
fact, the lake offers a number of
water sports –not only for the
Mugello territory, but for the
whole region– such as canoeing,
and sailing.

There are paths for hikers and
cyclists near the banks of the
lake, as well as a beach area with
umbrellas, beach chairs, and a bar
service.

BY MOUNTAIN BIKE TO THE MONUMENT TO THE PARTESANS ON MONTE GIOVI

This itinerary is of average difficulty. The first half moves along a dirt road that crosses the woods and the panoramic meadows. It departs from Dicomano and travels towards Celle. After an uphill climb, it reaches Tamburino and, therefore, the Monument to the Partisans. Here the descent to Collefertile, Arliano begins, and the trail reaches the provincial road which, to the right, leads to Dicomano. The itinerary is 34 km long and has an elevation gain of 749 m. It takes an average of 3,5 hours to complete. The trails are marked with the signs SO.F.T. 04, 11 B, 10, 9, SO.F.T. 06

Once back in Scarperia, we continue along via Imolese in the direction of **SAN PIERO A SIEVE**.

At about 3 km from the centre of Scarperia, on a nearby hill on the left, we find **Pieve di Santa Maria a Fagna**. The church, the first records of which are dated 1018, displays late Baroque features due to the radical renovations carried out in 1770. The only remnants of the Romanesque period are a polygonal pulpit with white marble and green serpentine inlays, and a fine, tiled octagonal baptismal font. These date back, respectively, to the mid and late 12th century. Ultimately, we can admire the **Assumption of the Virgin** (1587) by Santi di Tito, and a wax **Christ Departed** (1805) by Clemente Susini.

Moscheta Abbey

From the town of Firenzuola along the road that leads to Passo del Giogo, we reach a cluster of houses known as Rifredo. Here we turn left on a road for the nearby **Badia di San Pietro in Moscheta**, which is surrounded by a lush green landscape. This is a protected area for its rich flora and fauna. The Abbey was founded in 1034 by Beato Rodolfo dei Galigai, of the Vallumbrosan order. Legend has it that the complex of religious structures, which had grown too extensive, was destroyed by the flooding of a nearby river, and that this was brought on by the prayers of S. Giovanni Gualberto, who was the founder of the order and advocated humility. The newer 14th century Abbey holds a noteworthy courtyard and portico. Today, inside the Abbey we find the **Museo del paesaggio storico dell'Appennino** (Museum of the history of the Apennines, see "Museums in Mugello", p. 38).

Once over the Passo del Giogo, the road descends first through a vast pine forest, and then a chestnut and oak wood to the town of **SCARPERIA**. In the important town square, where the magnificent Palazzo dei Vicari (1306) stands, we find the **Oratorio della Madonna di Piazza** where, according to tradition, the viceroys took office and received the title of Podestà del Vicariato. It is an elegant

15th century construction: the façade is enhanced by a portal and fine sandstone mullioned windows. Inside we can admire a cross-vault ceiling covered in frescos attributed to Jacopo del Casentino, creator of the precious panel of the **Madonna on the throne with Child and Angels**, which is situated in a fine late Gothic temple. The Madonna is inside an impressive marble cornice shaped like a tabernacle, complete with a base and lunette, by Mino da Fiesole.

On the same square stands the **Propositura dei SS. Jacopo e Filippo**, which was once part of an Augustinian church complex, and stands next to the 15th century cloister. Inside we can find period frescos, a wooden Crucifix by Sansovino, a marble tondo by Benedetto da Maiano (15th century), and a tabernacle by Mino da Fiesole for the holy oils.

What the EU does for its citizens

Consumer benefits

Shoppers can now feel safe in the knowledge that they will get their money back if they return products. Travellers can buy train or plane tickets, knowing they can get a refund if their journey is delayed or cancelled. And the standards which goods in EU shops are required to meet are among the world's most stringent, in terms of both quality and safety.

Human Rights

The EU protects all minorities and vulnerable groups, and stands up for the oppressed. Regardless of a person's nationality, gender, language group, culture, profession, disability or sexuality, the EU insists on equal treatment for all.

What the EU does for its citizens

Single Market

The single market is the world's most highly developed and open marketplace. It is based on the EU's 4 key freedoms, which enable you and other citizens to:

1. live or work in any EU country
2. move your money
3. sell goods without restrictions
4. provide services on the same basis.

High food & environmental standards

Because EU countries cooperate so closely, our food and our environment meet some of the world's highest quality standards. Unscrupulous companies can't get away with selling contaminated food or polluting our rivers and countryside.

The history of the European Union

2010 - 2019

A challenging decade

The global economic crisis strikes hard in Europe. The EU helps several countries to confront their difficulties and establishes the 'Banking Union' to ensure safer and more reliable banks. In 2012, the European Union is awarded the Nobel Peace Prize. Croatia becomes the 28th member of the EU in 2013. Climate change is still high on the agenda and leaders agree to reduce harmful emissions. European elections are held in 2014 and more Eurosceptics are elected into the European Parliament. A new security policy is established in the wake of the annexation of Crimea by Russia. Unrest and wars in various countries lead many people to flee their homes and seek refuge in Europe. The EU is faced with the challenge of how to take care of them, while safeguarding their welfare and respecting their human rights.

What the EU does for its citizens

Since 1957, the European Union has benefited its citizens by working for peace and prosperity. It helps protect our basic political, social and economic rights.

Although we may take them for granted, these benefits improve our daily lives.

Peace & Security

Central and western Europe has never known so long a period without war. The EU is the most successful peace project in human history and has been awarded the Nobel Peace Prize. Europeans are closely linked economically and culturally, and through the democratic values we share.

Castagno d'Andrea

The main SO.F.T. loop trail in the northern part of Mugello runs through the bordering provinces of Arezzo and Forlì in the Florentine part of Mount Falterona and the Campigna Forest National Park in Casentino.

The landscape, which is typically mountainous, can be explored on foot, on horseback, and by mountain bike along well-marked trails, lanes and bridle paths. The territory of the Casentino national park offers over 600 km of trails and a vast selection of itineraries that are all different in length and levels of difficulty.

In the Park we can access the lovely hamlet of Castagno d'Andrea (in the municipality of San Godenzo), which was the birthplace of the great Renaissance painter Andrea del Castagno. It can be reached from both the Muraglione Pass, or the Valico della Croce a Mori (in the municipality of Londa).

The suggested sites include: the

summit of Falterona, the Arno River springs, the archaeological site at Lago degli Idoli, the Acqua Cheta valley with the enchanting falls that Dante described in his *Inferno*, in canto XVI. The crests of Mounts Acuto, Falco, and Levane are but a few sites of interest. In winter, the snow allows for wonderful skiing expeditions, both cross-country and downhill; while on the northern part of Mount Acuto you can mountain climb near the frozen falls.

THE "LA CIVILTA' DEL CASTAGNO" NATURE TRAIL

The trail stretches through age-old chestnut woods and offers the visitor the chance to uncover the natural environment around Castagno d'Andrea. This is the territory of the prestigious IGP Marrone chestnut.

The itinerary begins in the town of Castagno is 3 km long, takes an average of 2 hours, and has an elevation gain of 150 m.

We strongly suggest the use of the maps, *CARTE dei SENTIERI della PROVINCIA di FIRENZE: 01 Appennino Fiorentino, 02 Mugello, 03 Firenze e Val di Sieve* edited by CAI and published by D.R.E.A.M., which can also be viewed in the digital version for smartphone GPS after downloading the App AVENZA MAPS

The history of the European Union

2000 – 2009

Further expansion

The euro is now the new currency for many Europeans. During the decade more and more countries adopt the euro. 11 September 2001 becomes synonymous with the 'War on Terror' after hijacked airliners are flown into buildings in New York and Washington. EU countries begin to work much more closely together to fight crime. The political divisions between east and west Europe are finally declared healed when no fewer than 10 new countries join the EU in 2004, followed by Bulgaria and Romania in 2007. A financial crisis hits the global economy in September 2008. The Treaty of Lisbon is ratified by all EU countries before entering into force in 2009. It provides the EU with modern institutions and more efficient working methods.

The history of the European Union

1990 - 1999

A Europe without frontiers

With the collapse of communism across central and eastern Europe, Europeans become closer neighbours. In 1993 the Single Market is completed with the 'four freedoms' of: movement of goods, services, people and money. The 1990s is also the decade of two treaties: the 'Maastricht' Treaty on European Union in 1993 and the Treaty of Amsterdam in 1999. People are concerned about how to protect the environment and also how Europeans can act together when it comes to security and defence matters. In 1995 the EU gains three more new members: Austria, Finland and Sweden. A small village in Luxembourg gives its name to the 'Schengen' agreements that gradually allow people to travel without having their passports checked at the borders. Millions of young people study in other countries with EU support. Communication is made easier as more and more people start using mobile phones and the internet.

The history of the European Union

1980 - 1989

The changing face of Europe - the fall of the Berlin Wall

The Polish trade union, Solidarność, and its leader Lech Walesa, become household names across Europe and the world following the Gdansk shipyard strikes in the summer of 1980. In 1981, Greece becomes the 10th member of the EU, and Spain and Portugal follow five years later. In 1986 the Single European Act is signed. This is a treaty which provides the basis for a vast six-year programme aimed at sorting out the problems with the free flow of trade across EU borders and thus creates the 'Single Market'. There is major political upheaval when, on 9 November 1989, the Berlin Wall is pulled down and the border between East and West Germany is opened for the first time in 28 years. This leads to the reunification of Germany, when both East and West Germany are united in October 1990.

A growing Community – the first enlargement

Denmark, Ireland and the United Kingdom join the European Union on 1 January 1973, raising the number of Member States to nine. The short, yet brutal, Arab-Israeli war of October 1973 results in an energy crisis and economic problems in Europe. The last right-wing dictatorships in Europe come to an end with the overthrow of the Salazar regime in Portugal in 1974 and the death of General Franco of Spain in 1975. The EU regional policy starts to transfer huge sums of money to create jobs and infrastructure in poorer areas. The European Parliament increases its influence in EU affairs and in 1979 all citizens can, for the first time, elect their members directly. The fight against pollution intensifies in the 1970s. The EU adopts laws to protect the environment, introducing the notion of 'the polluter pays' for the first time.

A period of economic growth

The 1960s is a good period for the economy, helped by the fact that EU countries stop charging custom duties when they trade with each other. They also agree joint control over food production, so that everybody now has enough to eat - and soon there is even surplus agricultural produce. In Tuscany, at just a stone's throw from Florence, we find Mugello: it is situated among rolling hills and tall cypress trees, against a backdrop of lofty crests and mountain passes.

Incredible landscapes, hospitable, quiet, hardworking people, genuine food, Medici residences, museums, traditional arts and crafts, ancient churches, and remote convents all lie just outside the gates of the city of Florence. Mugello offers history, culture, and quality services in an enchantingly natural setting.

Access by bus or by car is excellent: you can reach Mugello by taking the A1 motorway and exiting

at Barberino di Mugello and Firenzuola, or by way of a number of interesting state and local roads from the Tuscan or Emilia-Romagna regions.

The old and enchanting Faentina railway line (also known as Dante's train, because it joins Ravenna and Florence: the two cities so dear to the Great Poet) allows the traveller to reach the Mugello territory both from the north, the Romagna side of the Apennines, and the station of Faenza; and from the south, the Tuscan side, and the station of Florence.

Local transport services allow the visitor to move freely within the territory.

OTHER STOPS ALONG THE ART NOUVEAU TOUR OF MUGELLO

The Chini family left numerous traces of their artistic talent in the various buildings and places of worship in Borgo San Lorenzo and the whole of the Mugello territory. Our search for hidden treasures allows us to experience the beauty, and peace and tranquillity of the Tuscan countryside.

The large, well-kept **Lutiano Tabernacle** which stands at the corner of the road that leads from Borgo San Lorenzo to Sagginale, in the hamlet of Lutiano, was constructed in 1721 to celebrate a miracle that took place there. In

1914 it was enriched with the image of a Madonna with Child in majolica created by the Fornaci San Lorenzo.

In **Santa Maria a Olmi Church**, in the vicinity of Borgo San Lorenzo, we can observe polychrome stained glass windows which are attributed to Tito and Galileo Chini.

The Chapel of Poggiolo alle Salaiole, a locality near Borgo San Lorenzo, was decorated by the Fornace San Lorenzo. The design, creation and direction of the work was carried out by Tito Chini.

Above the main door of the 13th century **S. Maria a Pulicciano Church**, which stands in a breathtaking position just above the town of Ronta (in the municipality of Borgo San Lorenzo), we can admire a polychrome majolica lunette that was created by Galileo Chini.

Built on the ruins of an ancient Ubaldini lookout tower in the vicinity of Pulicciano, we find **Villa di Striano**. In it we can admire frescos attributed to Galileo Chini.

Upper Mugello offers a variety of beautiful sights that are a must for any tourist with a love of art, for example, the towns of **Marradi** and **Palazzuolo sul Senio**.

In the historical centre of the town of Marradi we can admire **Palazzo Torriani**, which was built at the end of the 16th century on the ruins of a pre-Roman tower. Recently restored, this Palazzo has regained its ancient splendour. Its most precious decorations date back to the beginning of the 20th century and are the work of

The history of the European Union

1945 - 1959

A peaceful Europe – the beginnings of cooperation

The European Union is set up with the aim of ending the frequent and bloody wars between neighbours, which culminated in the Second World War. As of 1950, the European Coal and Steel Community begins to unite European countries economically and politically in order to secure lasting peace. The six founding countries are Belgium, France, Germany, Italy, Luxembourg and the Netherlands. The 1950s are dominated by a cold war between east and west. Protests in Hungary against the Communist regime are put down by Soviet tanks in 1956. In 1957, the Treaty of Rome creates the European Economic Community (EEC), or 'Common Market'.

Parties may also agree to transactions using other official foreign currencies (e.g. the US dollar). They may also agree to use privately issued 'money' like local exchange trading systems (e.g. voucher-based payment systems) or virtual currencies (e.g. Bitcoin).

These private and business transactions are still subject to taxation law, business law, anti-money laundering law and other general commodity trade rules. However, currencies which are not official within the euro area, are not governed by monetary law.

The euro as the official currency

The euro is the official currency of 19 European Union countries which collectively make up the euro area, also known as the eurozone.

Some EU countries have yet to meet the criteria required to join the euro area while Denmark has opted not to participate.

Within the euro area, the euro is the only legal tender. In the absence of a specific agreement concerning the means of payment, creditors are obliged to accept payment in euros.

What the EU does for its citizens

Global Power

EU countries acting in unison have much more of a voice on the world stage than 27 small and medium-sized nations acting separately. We have political clout. As regards trade, our regulatory and product standards are adopted worldwide as the global norm.

Other benefits the EU brings its citizens are:

- **You can use your phone and online services at no extra cost** wherever you are in the EU. You can also access your online video and music streaming services across the EU, safe in the knowledge that your personal data is protected under EU law.
- **Your rights are protected while you're travelling:** EU rules protect your rights in the event of delays or cancellations. Whether travelling by plane, train, boat or bus, you are entitled to fair treatment.
- **You can benefit from training and support for your business:** EU programmes like Erasmus+ help you get training to make the most of your career. The EU also helps you get the most out of your business – from finance to coaching, and from business networks to exchange schemes.
- **As a worker, you're protected from unfair treatment in the workplace** under the EU Charter of Fundamental Rights. This bans discrimination, including in the areas of pay and dismissals.
- **As an EU citizen, you're protected against the downsides of globalisation** by EU support for small businesses and rules to make sure that big companies pay their fair share of tax.
